

Millions of Europeans, War Weary, Coming Here, He Says

France, Italy and England Will Be Largely Represented in Tide of Immigration.

NEW YORK, April 2.—Five million Europeans, weary of the war, but still awakened to new points of view by it, are turning their eyes and thoughts to new homes across the sea.

If they can find these homes in the United States they will flock here the moment the opportunity is afforded. Otherwise they will remain where they are. Canada, Australia or South America are not considered for an instant by the great majority.

France has her thousands ready to come. Italy has even more, and England will be largely represented when a propitious time has come. But it is Germany that has the most numerous and most eager company of those who would be emigrants to this country.

There are expert findings of Frederick C. Howe, commissioner of immigration at this port, who recently returned from service at the peace conference in Paris and who naturally found in the problems of immigration and emigration an important element of the work he was doing with regard to reconstruction.

Important as these findings are, Dr. Howe brought home one of even greater interest, and for that matter, of not much less significance. It is this:

The American doughboy is responsible for the new and fervent consideration Europeans are giving the United States.

"With his head up, a grin on his tanned face and his long legs swinging in a stride that seems never to tire," said Dr. Howe, "the American doughboy is altogether the most lovable, the most worth-while man in Europe. He does things that nobody else has been able to do; he goes to places that everybody else thinks cannot possibly be reached. There isn't a corner in Europe that the man in khaki hasn't looked into; there isn't a job that he hasn't tackled and completed."

CALOMEL NOW PURIFIED FROM ALL OBJECTIONS

Chemists Rid Doctors' Favorite Medicine of Nauseating and Salivating Qualities—New Variety Called "Calotabs"

A triumph of modern pharmacy—that is a blessing to the whole world—that is the opinion of physicians and druggists who are familiar with the new, nauseous calomel that is wholly free from the objectionable effects of the old style calomel.

An occasional purging of the system and thorough cleansing of the liver are absolutely essential to health, and, as all doctors know, calomel was the only drug that accomplished this result. Now that the unpleasantness and danger of salivation are entirely removed, the popularity of the new calomel, Calotabs, will be vastly increased. Its effect is delightful. One tablet at bedtime, with a swallow of water—that's all. No salts, no nausea, no griping, nor the slightest unpleasantness. You wake up next morning feeling fine, your liver cleansed, your system purified and with a hearty appetite for breakfast. Eat what you please—no danger of salivation. No restrictions of habit or diet.

For your protection Calotabs are sold only in original, sealed packages, price thirty-five cents. Your druggist recommends and guarantees them by refunding your money if you are not delighted with them. (Adv.)

10 Years Use, a Proven Success ECZEMATONE

What is it? Why is it the strongest Non-Irritating Liquid Antiseptic and Germicide in the world. The greatest Discovery of the Age, for Skin, or Scalp Disease. Do not give up. If you are not Satisfied with the Results, Ask for your Money Back.

FOR SALE BY LEADING DRUG STORES

Manufactured by Barlow Chemical Co., Shawnee, Okla.

Frederic C. Howe.

"The country that produces such extraordinary beings is bound to fire the faith of those who look on and try to imagine from the effect what the cause has been. Can you doubt that the United States has come to be for the French a wholly desirable land in which to live?"

"And this sort of thing is happening all the way across Europe exactly as it is happening all the way across France."

CORRECT DIAGNOSIS

SAVED HIM FROM EXPENSIVE SURGICAL OPERATION.

Nowata Man Cured of Rupture by Inter-State Doctors.

Mr. Jesse D. King of Nowata, Okla., and who is well known among oil men, writes as follows of the Inter-State Doctors and the work they are doing:

Nowata, Okla., May 8, 1917.

"I had been having a severe pain in my right side at times for several years; a number of doctors wanted to operate on me for appendicitis. On January 6, 1917, after having made a heavy lift and suffering almost unbearable pain I drove to Coffeyville, thinking I would have to be operated on. Before going to the hospital I decided to call on the Inter-State Doctors. They explained to me that my condition was not appendicitis, but I had been suffering from incomplete rupture and that the lifting had forced it through the canal and that I had almost a strangulation of the bowel. I placed myself in their care and have been entirely cured of my rupture without the knife. I am very grateful to these doctors for what they have done for me."

"JESSE D. KING."

The Inter-State Doctors have published many testimonials from satisfied and cured patients. These testimonials have come from persons of undoubted integrity and standing.

Of course, all chronic diseases can not be cured, but many so-called incurable ones have been successfully treated by the Inter-State Doctors.

With the accepted and best methods for reaching all chronic conditions the Inter-State Doctors, who have their Oklahoma City institute on the 5th floor of the Herkowitz building, have combined far-reaching methods of their own. They use all of the latest serums, bacterins and intravenous solutions, including 914, which they guarantee to be genuine.

The extraordinary facilities for diagnosis and the seeming sixth sense that enables them to locate any deep-seated obscure lesion that always precedes any chronic condition is not the least factor in their success.

They have helped thousands back to health. Some have been cured in one treatment (such as varicose and other enlargements).

Consultation and examination is free to all, but only curable cases will be accepted for treatment. If your disease is incurable you will be told so and not one penny of your money will be taken. However, many cases that are incurable by old methods can be quickly cured by this wonderful new treatment of the Inter-State Doctors.

Their hours are, week days, 9 to 5; evenings, 7 to 8; Sundays, 10 to 12, only.

Miller's Antiseptic Oil, known as

Snake Oil

Positively Relieves Pain in Few Minutes.

Try it right now for Rheumatism, Neuralgia, Lumbago, sore, stiff and swollen joints, pain in the head, back and limbs, neuralgia, sciatica, etc. After one application pain usually disappears as if by magic.

A new remedy used internally and externally for Coughs, Colds, Grippe, Sore Throat, Diphtheria and Tetanus.

This oil is commended to be the most penetrating remedy known. Its prompt and immediate effect in relieving pain is due to the fact that it penetrates to the affected parts of the body. As an illustration, pour two drops on the afflicted place of a sore throat and it will penetrate, this substance through and through in three minutes.

Accept no substitutes. This great oil is Miller's only. Every bottle guaranteed—25c. and \$1.00 a bottle at Westfall Drug Co.

Boy Denies Two 'Deaths' In Action

Claude Dodson Gassed Two Times in France But Gets Fat on Diet.

Denial that he had been killed in action twice while serving in France was made today by Claude Dodson, 23 years old, son of Mrs. Lizzie Dodson, 624 West Fourth street. Young Dodson has just returned from overseas, where he served as a private in Company L, 10th Infantry, Twenty-eighth division.

Dodson was gassed twice while in action at Chateau Thierry, and it is supposed that the two reports of his

death received here resulted from these experiences.

When Dodson left Oklahoma City he weighed about 150 pounds. He now tips the scales at 174 pounds, despite the gas the Hun poured into his system.

Don't borrow money or renew a loan on Oklahoma City real estate without consulting Gum Brothers' company. (Adv.)

STATE SALARY BILL ON GOVERNOR'S DESK

House Bill No. 315, fixing the salaries of all state department heads and employees and creating a number of new positions, and which threatened to tie up adjournment of the legislature during the closing hours of the session, reached the governor's office this morning from the house enrolling room.

A number of appointments, including state health commissioner and assistant general, have been held up pending action by the governor on this measure, which effects practically every department of the state.

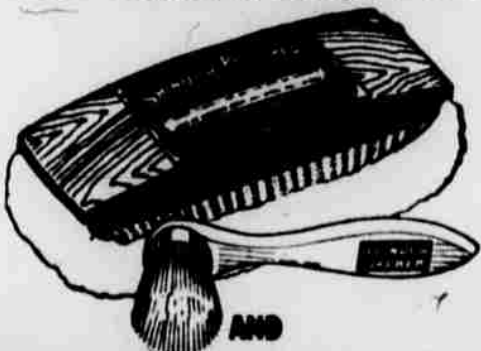

Constipated Children Gladly Take "California Syrup of Figs"

For the Liver and Bowels

Tell your druggist you want genuine "California Syrup of Figs." Full directions and dose for babies and children of all ages who are constipated, bilious, feverish, tongue-coated, or full of cold, are plainly printed on the bottle. Look for the name "California" and accept no other "Fig Syrup."

Do you go to work fully dressed? Are your shoes polished? THE SHINOLA HOME SET

SHINOLA

AMERICA'S HOME SHOE POLISH

In key opening box, makes shoe shining easy, a mere matter of seconds.

A Shinola shine is brilliant and lasting.

The genuine bristles of the Shinola Dauber are cemented in a deep steel setting so that they do not fall out or mat down with use. The bristles are sufficiently sturdy to easily remove any dirt or grit from around the sole, spreads polish evenly, reaches all creases and cracks.

SERVICE NOTE.—Before applying polish clean both shoes thoroughly from dirt and grit, especially around the sole.

The Shinola Polisher is made of the highest grade of lamb's wool, tanned on the hide and mounted on a wood back.

"White Shinola is a lily white dressing for all white leathers and fabrics. The unusual density of whiteness brings back newness."

Brown and Red Shinola are the latest additions to Shinola products. Quality unexcelled.

Around the World on a Set of Pneumatic Tires

From the beginning of building of Automobile Wheels and Pneumatic Tires many brilliant inventive minds have worked on the problem of overcoming tire troubles and expense, and many have announced from time to time that they had solved it. But it remained for S. C. Hatfield of Baltimore Md., after many years of study and experimenting to perfect the most practical and satisfactory solution of the great problem yet brought to the attention of the motor world the **Hatfield Resilient Wheel** — with a solid outside tire and pneumatic tire around the hub; where it should have been placed at the beginning of the building of automobile or truck wheels, thereby saving many thousands of dollars of expense and worry to the users of either an automobile or truck. There are now in use over 29,000,000 wheels and at an average cost of

\$40 per wheel per year for tires and repairs to keep these wheels in service means an outlay of over One Billion, One Hundred and Sixty Million Dollars (\$1,160,000,000.) What part of this expense are you paying, and to whom are you paying interest on your auto or truck investment? Is it to yourself? Does this interest you? If so call and see for yourself model of the Hatfield Resilient Wheel now on exhibition in lobby of Lee-Huckins hotel, and see and learn for yourself what really has been perfected and what opportunities are offered you through an investment in this company's distribution of a limited amount of stock for this state. All stock is common, non-assessable and fully paid. Physical par value, \$10 per share. For further information ask any of the company's representatives demonstrating the wheel.

No Punctures, Rimcuts or Blowouts
Pneumatic Tires Guaranteed for 25,000 Miles

The Hatfield Resilient Wheel Co.

KNOWLES WELL MAKING 10,000 BARRELS.

MAP SHOWING HOLDINGS

OUR FIRST WELL TO BE DRILLED IN ONE MILE AND WE WILL DRILL FOUR OR MORE WELLS YOU TO SHARE IN ALL

The G. W. Knowles oil well No. 1 in Comanche county, Texas, which was brought in January 7, according to an article in The Fort Worth Star-Telegram on March 19, 1919, is producing oil at the rate of 10,000 barrels per day. Since January 7 this Knowles well has never produced less than 3,000 barrels a day. The pipe line records show this. When it was drilled four feet deeper the production was increased to 10,000 barrels a day. The Tex-Petroleum Company of DeLeon, Texas, has a lease within approximately one mile from this famous well. The Tex-Petroleum Company plans to drill its first well on this lease, and hopes to get just as big a gusher as the Knowles.

1,000 ACRES IN EIGHT TRACTS

The Tex-Petroleum Company has holdings of 1,000 acres — one thousand acres — eight tracts. Read where they are:

Tract No. 1—Nine acres out of the Zula Lynn tract, one mile west of the famous Knowles well that is reported making 10,000 barrels a day; three-quarter miles west of the Pearson well, and on the same tract with the S. W. Oil Company, which is on the sand with a good showing of oil and gas. The Del-Tex Oil Company is drilling at 300 feet on 15 acres out of the Zula Lynn farm.

Tract No. 2—Fifty acres in Erath county, south of Phoenix well No. 1, and close to Lucky Six and Bender wells.

Tract No. 3—Fifty acres three-fourths of a mile east of the Davis well at Comyn.

Tract No. 4—Ten acres out of the B. F. Stephens farm, adjoining the Hulse tract on which is being drilled the famous Downing well, now drilling at 2,400 feet with a showing of gas.

Tract No. 5—Seventy-one acres 1 1/2 miles northeast of the Tulsa Producing Company's Fritts well, now drilling at 1,700 feet.

Tract No. 6—190 acres 1 1/2 miles southwest of the Sturkey well of the Comanche Oil and Gas Company, drilling at 1,200 feet.

Tract No. 7—520 acres two miles northeast of the town of Sidney, Texas, near Copperas Creek. This 520 acres is on one of the finest structures in Comanche county, and we will drill on this lease. The Ohio Fuel Oil Company and the Lone Star Gas Company are drilling a well south of this acreage.

Tract No. 8—100 acres one-half mile southeast of the Ballard well and one-half mile south of the Home Boys' Oil Company's location, and two miles southeast of the Tate well, and one mile northeast of the Copperas Creek Oil Company's location.

POSSIBLE HUNDRED PERCENT DIVIDENDS. YOU SHOULD BUY. REMEMBER THIS:

No Dry Holes in Comanche County. There are nine producing oil wells and four big gas wells. Look at the map.

We are going to drill just as soon as we can get the material and tools on the ground. A big gusher like the Knowles should get a tremendously high value on our stock. Our stock may be worth 10 to 1 in a short time. You may not have the opportunity long to buy this stock at \$1.00 a share. This stock may be earning 100 percent a month in a very short time. You will have no one to blame but yourself if you do not buy all the shares in this company you possibly can afford.

ANOTHER PRODUCER FOR COMANCHE COUNTY

The Plains Oil Company brought in a well on the Stockton farm, Monday, March 24. This well is just 3-4 mile west of the Knowles No. 1 and 1/2 mile east of the location of the Tex-Petroleum Company. The well is estimated making about 400 barrels daily, and has been drilled just one foot into the sand. As soon as storage can be built the well will be drilled deeper and it is believed will equal the Knowles.

STOCKHOLDERS' GUARANTEE

The Tex Petroleum Company guarantees to drill four or more wells and all offset wells. The Tex Petroleum Company guaranteed to pay, out of any production secured, 75 percent of the net proceeds in monthly cash dividends, and the remainder to be devoted to the development of our properties in any manner that will be advantageous to our shareholders. We have no salaries or offices and will have none until production is secured.

A close study of the map and careful reading of list of acreage will convince anyone that this is no promotion affair, and that the Tex Petroleum Co. offers to the investing public one of the best opportunities in the famous Comanche County oil field.
